## All FET 325-259 Line Amplifier (Unbalanced)

Based on Borbely Audio Kits:

EB-703/325 Line Amplifier

EB-703/259 PS/Regulator

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls (manual or remote controlled)

Custom Made Transformers

Tactile switch power-on and control circuit

5 stereo RCA inputs and 2 stereo RCA outputs (other options available)

Prices for assembled and checked out units start at \$3000.00

(other assembly/pricing options available)

## All FET 325-259 Line Amplifier (Balanced)

Based on Borbely Audio Kits:

EB-703/325 Line Amplifier

EB-703/259 PS/Regulator

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls (manual or remote controlled)

Custom Made Transformers

Tactile switch power-on and control circuit

5 stereo inputs (2 XLR and 3 RCA) and 2 stereo outputs (1 XLR and 1 RCA) (other options available)

Prices for assembled and checked out units start at \$4200.00

(other assembly/pricing options available)

## All FET 309-254 (309-418) Line Amplifier (Unbalanced)

Based on Borbely Audio Kits

EB-107/309 Line Amplifier

EB-202/254 (EB-208/418) Regulator

EB-1100/252 (EB-108/291) Power Supply

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls (manual or remote controlled)

Custom Made Transformers

Tactile switch power-on and control circuit

5 stereo RCA inputs and 2 stereo RCA outputs (other options available)

Prices for assembled and checked out units start at \$5000.00

(other assembly/pricing options available)

### All FET 309-254 (309-418) Line Amplifier (Balanced)

Based on Borbely Audio Kits

EB-107/309 Line Amplifier

EB-202/254 (EB-208/418) Regulator

EB-1100/252 (EB-108/291) Power Supply

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls (manual or remote controlled)

Custom Made Transformers

Tactile switch power-on and control circuit

5 stereo inputs (2 XLR and 3 RCA) and 2 stereo outputs (1 XLR and 1 RCA) (other options available)

Prices for assembled and checked out units start at \$7200.00

(Other assembly/pricing options available)

### All FET 320-254 Phono Preamp

Based on Borbely Audio Kits

EB-199/320 Phono Preamplifier

EB-202/254 (EB-208/418) Regulator

EB-1100/252 (EB-108/291) Power Supply

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Tactile switch power-on and control circuit

Switchable gain 64db/54db on rear panel

1 stereo RCA input and 1 stereo RCA output

Prices for assembled and checked out units start at \$4800.00

(Other assembly/pricing options available)

### FET 435-259 Parallel Digital to Analog Converter

Based on Borbely Audio Kits

HB-DAC1704 DAC

EB-108/435 I/V Converter

EB-703/259 PS/Regulator

Two PCM1704 chips per channel operating in parallel

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Tactile switch power-on and control circuit

1 AES/EBU (XLR) and 2 COAX (RCA or BNC) inputs (optional choice of I2S or USB)

2 stereo analog outputs (1 XLR and 1 RCA) and 1 COAX (RCA or BNC) digital output

Prices for assembled and checked out units start at \$3500.00

(Other assembly/pricing options available)

### FET 435-254 (435-418) Balanced DAC

Based on Borbely Audio Kits

HB-DAC1704 DAC

EB-108/435 I/V Converter

EB-202/254 (EB-208/418) Regulator

EB-1100/252 (EB-108/291) Power Supply

Fully balanced from input to output—four PCM1704 chips, two per stereo channel

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Tactile switch power-on and control circuit

1 AES/EBU (XLR) and 2 COAX (RCA or BNC) inputs (optional choice of I2S or USB)

2 stereo analog outputs (1 XLR and 1 RCA) and 1 COAX (RCA or BNC) digital output

Prices for assembled and checked out units start at \$6100.00

(Other assembly/pricing options available)

### Ribbon 50 Monoblock Power Amplifier

Based on Borbely Audio Kits

EB-700/343 Driver

EB-117/401 (EB-1199/114) Output

EB-903/237 Power Supply

50 Watts Class A

1 balanced XLR and 1 unbalanced RCA input

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Prices for assembled and checked out units start at \$6500.00

(Other assembly/pricing options available)

### Ribbon 50 Stereo Power Amplifier (in development)

Based on Borbely Audio Kits

EB-700/343 Driver

EB-117/401 (EB-1199/114) Output

EB-903/237 Power Supply

50 Watts Class A per channel

1 balanced XLR and 1 unbalanced RCA input

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Prices for assembled and checked out units start at \$5600.00

(Other assembly/pricing options available)

### Millennium 75 Monoblock Power Amplifier

Based on Borbely Audio Kits

EB-2000/342 Driver

EB-117/400 (EB-2000/115) Output

EB-903/237 Power Supply

Two power options:

Option 1: 75 Watts Class A

Option 2: 100 Watts Class AB (60 Watts Class A)

1 balanced XLR and 1 unbalanced RCA input

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Prices for assembled and checked out units start at \$7500.00

(Other assembly/pricing options available)

### Millennium 200 Monoblock Power Amplifier

Based on Borbely Audio Kits

EB-201/168 Driver

EB-117/400 (EB-2000/115) Output

EB-903/237 Power Supply

150 Watts Class AB (30 Watts Class A)

1 balanced XLR and 1 unbalanced RCA input

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Prices for assembled and checked out units start at \$8000.00

(Other assembly/pricing options available)

### Bridged Ribbon 200 Monoblock Power Amplifier (in development)

Based on Borbely Audio

EB-700/343 Driver

EB-117/400 (EB-2000/115) Output

EB-903/237 Power Supply Kits

200 Watts Class A per channel (bridged circuit)

1 balanced XLR input only

Custom Chassis – Black or Silver Anodized Finish – Lettered

Choice of connectors, wiring, switches and controls

Custom Made Transformers

Prices for assembled and checked out units start at \$11,000.00

(Other assembly/pricing options available)
